Dear Sir,

On January 17, 2005, Applicant requested a corrected Filing Receipt in the above-referenced patent application. Specifically, the filing date on the Filing Receipt was incorrectly noted as February 18, 2004 when it should have been February 19, 2004. Accompanying the Request, a marked up copy of the Filing Receipt was provided. Copies of these documents are attached.

On January 27, 2005, the USPTO mailed a Response to Request for Corrected Filing Receipt requesting information regarding the filing date. In response, a Response to Response to Request for Corrected Filing Receipt was filed on February 25, 2005 providing the Express Mail Certificate showing the correct filing date. The response was sent via telefacsimile. These documents are also attached.

On July 8, 2005, the undersigned telephoned the USPTO to enquire as to the progress of the corrected Filing Receipt and was informed that the Response to Response for Corrected Filing Receipt had never been received. The undersigned was told to send the documents again but to a different facsimile number. A facsimile was sent to the number given by the OIPE. A copy of this is attached.

Today, August 24, 2005, the undersigned again telephoned the OIPE again to enquire on the progress of the corrected Filing Receipt and was informed that the facsimile number given to her by the OIPE on July 8, 2005 had not been in use since April 2005. The OIPE said that all the documents should now be sent via mail to the address above. The purpose of this transmittal is to provide the right documents to the right department so that a corrected Filing Receipt can be issued.

Docket No. VDX5002CIP
Serial No. 10/782,413

The application has now entered the national phase in numerous countries each of which has requested a corrected Filing Receipt. In several of these countries, the deadlines imposed will soon terminate and the application will go abandoned. In order to prevent this from happening, please expedite this request. If this request has once again arrived at the wrong department or if there is anything else defective with this transmittal please telephone the undersigned immediately.

If there is anything the undersigned can do to expedite this matter, please telephone immediately. Please charge any fees in connection with this Petition to Deposit Account No. 10-0750/VDX5002CIP/SKL.

Dear Sir:

Upon review of USPTO.gov and several conversations with the USPTO, Applicant has determined that the Response to Response to Request for Corrected Filing Receipt sent via facsimile in the above-referenced patent application on February 25, 2005 has not been made of record.

Accordingly, copies of the relevant documents are hereby resubmitted. A Response to Request for Corrected Filing Receipt was mailed from the USPTO on January 26, 2005 requesting a copy of the Express Mail Label. This was responded to on February 25, 2005 with the requested documentation. The attached fax confirmation provides evidence of receipt of the February 25, 2005 correspondence by the USPTO.

In light of the fact that the corrected Filing Receipt is required by several foreign countries to complete national phase filing and it has now been nearly five months since the Request was perfected, Applicant's representative respectfully requests expedited handling of the Request for Corrected Filing Receipt.

Please direct any questions to the undersigned at (732) 524-3982.

Respectfully submitted,

Susan Lehnhardt

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
